

Adding a link to your website on your phone

For parents to quickly access information from your website, it is valuable to teach them how to add your website to the home screen of their phone or mobile device.

ANDROIDS

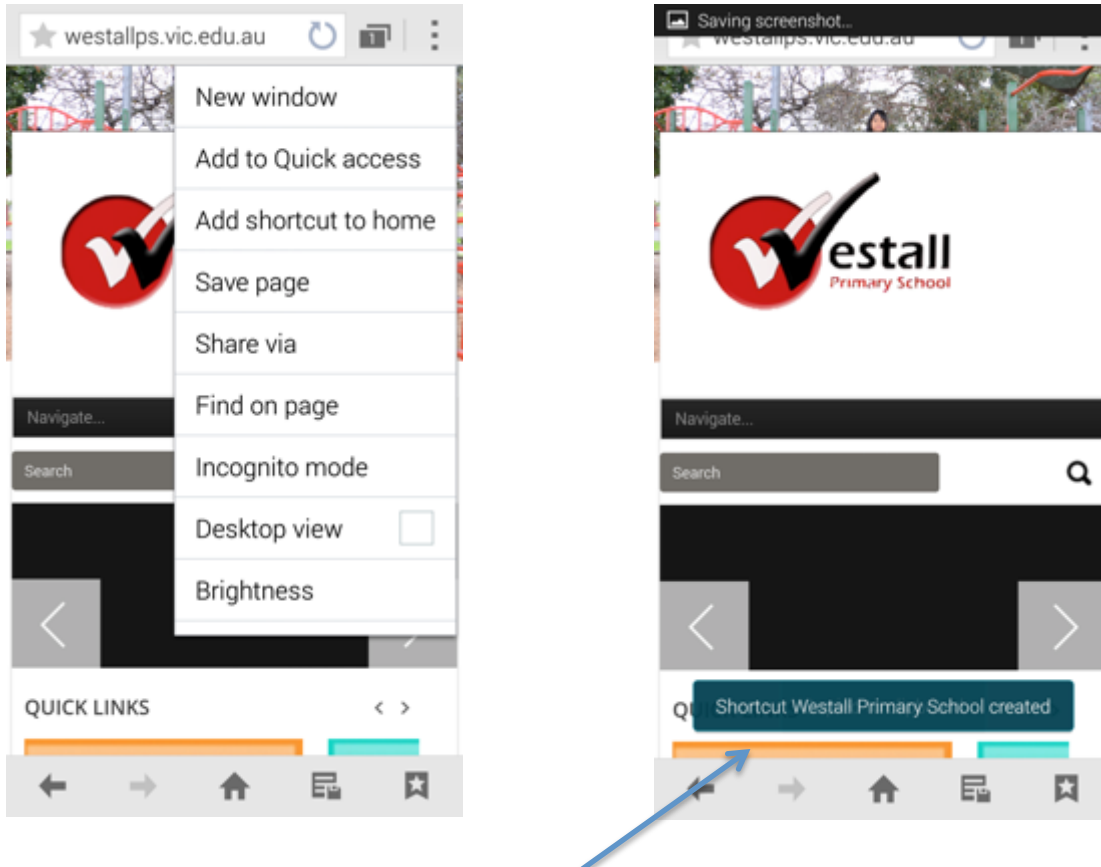

Go to the website that you wish to add to your home screen. Pull down the menu bar (by swiping down from the top (this way you will see the address bar at the top of the screen).

Touch the 3 dots in the top corner of the screen.

Adding a link to your website on your phone
